

encimeras FINTOP+

Encimera de cocina, desarrollada como **solución horizontal** a la altura de las exigencias del día a día. Tiene **protección antibacteriana** y se presenta con diseño decorativo en la parte superior, **contracara** y **canto posterior aislante**.

CARACTERÍSTICAS PRINCIPALES

SOPORTE Superpan Decor Hidrófugo 1-3/16" - 42 kg/ud
Superpan Decor Hidrófugo 38mm - 53 kg/ud

DIMENSIONES 25-3/16" x 12"

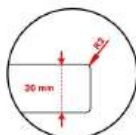

CANTO FRONTAL Postformado doble: Radio 1/8"

OTRAS CARACTERÍSTICAS Canto trasero genérico
Junta selladora
Contracara recubierta
Protegido con film

OBSERVACIONES La diversidad de colores y posibilidades también permiten que este producto se utilice para otras aplicaciones como: mesas de trabajo, mobiliario de hostelería, etc. Disponibilidad de:

- Canto en rollo de cada diseño para rematar los laterales.
- Perfiles de aluminio para unión en recto y esquina.
- Herraje para unión de encimeras

PERFILES DISPONIBLES

MÁS INFORMACIÓN

Gama de encimeras de cocina desarrollada sobre nuestro exclusivo SuperPan Hidrófugo, que le confiere al producto una elevada resistencia al impacto, una calidad de corte superior para uniones perfectas y una mayor resistencia a ambientes húmedos.

Se ofrece en dos espesores, en 30 mm y en 38 mm aportando una sensación de firmeza y robustez. Toda la gama Fintop+ se sirve postformada por el frente aportando una imagen de continuidad y evitando juntas que acumulen suciedad.

Gracias a la tecnología utilizada en el recubrimiento melamínico, ofrecemos unos productos similares a productos naturales en diseño y textura aptos para el contacto con alimentos, de fácil limpieza, resistente y con un tratamiento antibacteriano.

Hemos realizado una selección de decorativos que incorpora diseños exclusivos para todo tipo de gustos. La mayoría de las referencias son de nuestra Gama Duo, lo que facilita enormemente la combinación con frentes y remates, así como el hecho de utilizar los mismos tonos en proyectos con espacios compartidos, como por ejemplo las cocinas abiertas al salón.

También fabricamos mostradores bajo pedido.

Para garantizar una vida útil lo más amplia posible, las encimeras Fintop+ vienen con la contracara recubierta y con la parte posterior canteada. También incorporamos una junta selladora en la parte frontal para evitar goteo de agua hacia el interior del mueble.

ACABADOS

NEW!

Moa

Textura efecto piedra abujardada mate y de tacto suave. Dispone de una estructura homogénea que se funde a la perfección con variedad de tipologías de decorativos: cementos, piedras calizas, granitos, terrazos, óxidos...

NEW!

Balm

Textura super mate y de agradable tacto cálido que aporta un buen comportamiento ante manchas por huellas. Balm es un acabado muy versátil, que funciona perfectamente con unicolores, metalizados o mármoles sin apagar la intensidad o colores de los decorativos.

Antiq

Textura muy profunda con efecto madera cepillado rústico. Al tacto aporta calidez y a la vista es mate. Su estructura homogénea es muy versátil y combina tanto con maderas tranquilas, como con maderas rústicas y entablilladas.

Ensamblaje para unión de encimeras

Herraje ultraplano para encimeras delgadas

CARACTERÍSTICAS PRINCIPALES

- Compatible con encimeras Compac 13 mm.
- Válido para otros productos que permitan un mecanizado mínimo de 11 mm de profundidad.
- Sistema de unión oculta con doble luna y tornillo de rosca métrica.
- Tornillo con cabeza almenada para apriete con destornillador plano.
- Servido en cajas de 20 ud. embolsadas individualmente.

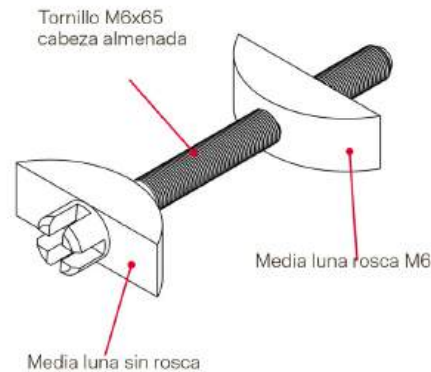

ESPECIFICACIONES

1x Tornillo M6 x 65 con cabeza almenada

1x Media luna sin rosca

1x Media luna rosca M6

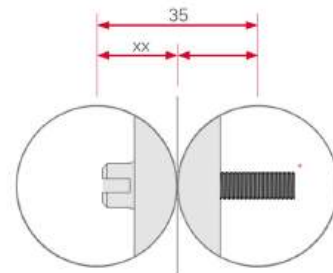

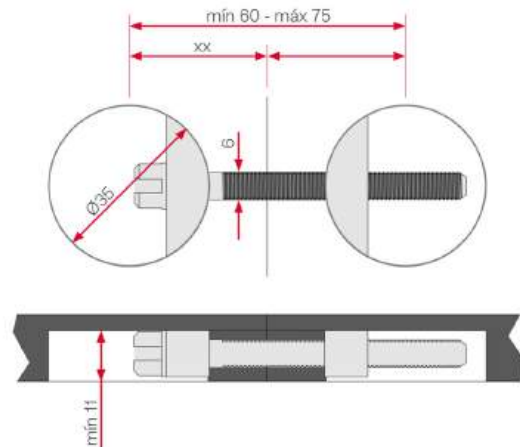

Introducir primero la Luna sin rosca con la cara plana hacia la cabeza del tornillo y, a continuación, la luna roscada en el extremo del tornillo con la cara plana hacia fuera.

MECANIZACIÓN

Opción A - Con canal

Opción B - Sin canal

* Para esta opção (B), é necessário reduzir o parafuso em aproximadamente 30 mm.

Featured Worktop, Breakfast Bar, Upstand and Splashback in 5573 Neputunite – Texture Terra

THE STRATUS COLLECTION

WORKTOPS

SLIMLINE & DURABLE. As design trends have developed to thinner worktops, the Stratus range of 12mm compact worktops takes the design solutions available to a whole new level. These durable, modern designs with a range of textures, offer sleek lines combined with a high level of performance in the demanding kitchen environment.

Size - 3050x640mm | **Thickness** - 12mm | **Core**- White, Brown, Grey, Black | **Texture** - Essentia, Terra, Satin, Suede

AFX: ANTI-FINGERPRINT

INNOVATIVE SURFACE FINISHES. Specially treated, the Stratus AFX worktop collection boasts a unique surface performance that's super matt, non-porous and hydro-repellent, making it effortless to clean away fingerprints, impurities and grease marks. These features combine to make the AFX collection an impressive addition to any kitchen.

Safe and Healthy Living alongside Greenlam Products

The entire range incorporates Safeguard Plus™, a revolutionary development that retards the growth of the vast majority of common bacteria. This means our products are ideal for laboratories, kindergartens, offices and domestic environments.

GREENGUARD Certification Program

GREENLAM® laminates are classified under the Low Emitting Product category when measured for potentially harmful emissions. This is an assurance that our products are ideal for use in interior environments where air quality is vitally important.

GREENGUARD Gold Certification

This certification, with a stricter criteria, means that **GREENLAM®** products are suitable for use in environments where children spend significant periods of time, including schools, daycares and healthcare facilities.

GREENLAM® products have been awarded CE certification which is given to those manufacturers who declare that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation, in practice by many Product Directives. CE Marking on a product indicates to government officials that the product may be legally placed in the market in their country.

All **GREENLAM®** Laminates are certified by the prestigious American body, NSF International, making them the safest laminates for human health. Our surfaces can be used in situations where they will have direct contact with food. "Our surfaces have also been tested in accordance with EC directive 1935 with regards to food safety. Our products were proved fully compliant through testing to the demanding EU Food Commission Regulation 10/2011 with successful testing to BSEN 1186-1:2002, BSEN 1186-3:2002 & BSEN 1186-14:2002".

GREENLAM® products are tested in accordance to BS EN 438 – 2 and strictly conforms to all the testing standards for dimensional stability and performance levels such as boiling water, moisture, impact, scratches and stain resistance.

APPROVED BY THE WORLD
